## ASX Release

### **Energy One nominated as preferred tenderer for the provision of its Trading Solution.**

Energy One today announced it has been nominated as preferred tenderer for the provision of its Energy Trading Solution to a government-owned power generator. Energy One is currently negotiating contractual terms and expects those negotiations to be completed before the end of October 2009.

The company has been actively marketing its software solutions and is pleased with this development. This announcement continues to demonstrate Energy One's commitment to developing and delivering quality enterprise business tools to major energy sector clients.
